MUZZLE PROTESTORS TO CALL ON MAYOR

Protective Society and Long Island Kennel Club May Go in a Body.

MEETING ENTHUSIASTIC

bearing on the dog muzzling ordinance of Brooklyn.

John F. Collins, president of the Buli-John F. Collins, president of the Buil-dog Club of America and one of the American Kennel Club delegates entrusted with \$3,000 of the A. K. C. funds to de-fend any undue interference with dogs or aggressive persecution in connection with the ownership of dogs in New York, made the ownership of dogs in New York, made a long speech in which, by the aid of statistics, he put before the meeting the good work that has been accomplished by the S. P. C. A. He had been one of a deputation that waited on Dr. Goldwater yesterday, and amid considerable applause Mr. Collins stated that he thought that the president of the Board of Health was "callenged" and healthed to be some one of the state of the s "mellowing" and inclined to meet some of the wishes of dog owners who took proper care of their dogs in this city.

The police, Dr. Goldwater was reported

to have said, would be instructed not to interfere with unmuzzled dogs in automothe authorities would not be hard on owners who muzzled their dogs in a reasonable way. The police would be told forthwith they were not to seize pet dogs in the arms of women or children. There would absolutely no interference with bench

to the City Hall in a body. Application forms for membership in the D. O. P. S. may be obtained from the secretary, Leo N. Hancox, 457 West 166th street. The

BREEDING FOR COLOR FASCINATING PURSUIT

History of Spaniels Shows What Results May Be Obtained.

Breeding for color has always been

The verting again and again to the color on the slightest provocation. It is thought that it has been scientifically proved blank cartridge was discharged almost in his ever but the dog stuck on and it that the black freak in other animals is more easily perpetuated than the white one, and spaniel breeding certainly goes to grove that black monopolizes every other

olor. It is surprising how few col-red spaniels there were in the stud-ooks of a quarter of a century ago. The

fashion in spaniels all ran to black or liver color, and so all the roan and tribusiness in connection with the kennels will be carried on as usual. Mrs. Clarke has gone to Lake Mohonk, on the top of the Shawangunk mountains.

At the kennels are a most promising lot of young Poms and Pekes. There are thirty-five of the former and all as sharp and lively as crickets. Among the latest arrivals has been a litter of seven Pomeranians, sired by Mrs. Sheppard's lovely Gold Speck's Model of Mrs. Clarke's good or ange colored by the Goldmine. They are sire encountered by the color and white spaniels of or specific spaniels of the carly days were mostly old fashioned liver and white spaniels of locality that a wanted person would pard's lovely Gold Speck's Model of Mrs. Clarke's good or ange colored bitch Goldmine. They are sire are two Pekingese puppies that will be a great credit to the kennels. They are by Mrs. Clarke's Fairfax Takomo and have been pronounced by averaging in those days to beet the color. This dog was thought good.

The colored ones at that time may be said to have been owned by Dr. H. B. Spurgin of Northampton and H. P. Green of Calske Williston of Northampton and H. P. Green of Calston Hall, Norwich.

The two breeds are almost identical.

Mr. Green began his colored strain by receiving from Dr. Spurgin a blue roan and time to demonstrate her capabilities.

The club entertained on a specially devated stand and a large number to demonstrate her apparent with the call of a so-called Norfolk spaniel, Gay Belle, and the liver colored spaniel of locality that a wanted person would be colored by the colored spaniel of locality that a wanted person would be colored by the colored spaniel of locality that a wanted person would be colored spaniel of the carly days were mostly old fashloned liver and white spaniels. It does not appear that there were any show spaniels of the liver-roan or liver-roan and tan color until the advent of that wonderful dog Alonzo, one of the latter professional handlers and trainer

eleven firsts, eleven seconds, three thirds and nineteen special prizes. He was a fulfill flat second animal. In 1912 at St. Ghislain he gained the title of Champion.

Troubetskie, from whom she was received game fulfill flat second for the first attention was being given to these dogs in Parls and when Europe was at peace.

Shepherd Dog Club Bigger.

Meade's Cup an Unusual One.

A beautiful challenge cup is to be of-ered at the Dogs in Toyland show at the Gregorian on October 21. It is an imposing trophy and has on it shields whereon will be engraved the names of the dogs and the owners winning it. This imposing cup was chosen and is given to the Woodmere Kennel Club by its president, James Edwin Meade of Brooklyn.

TELL VON FLUGELRAD **BEST OF POLICE DOGS**

Wins Trials at Montelair by Margin of 12 Points Over Renz von Buron.

HARD DAY ON "PRISONERS"

Montclair, Oct. 3.—The dark wolf sable colored German shepherd dog Tell von Flugelrad won the silver gobiet offered by the German Shepherd Dog Club of America at to-day's trials held at Verona Heights House Market and Company and Comp Heights, Upper Montclair. This dog was European champion imported by L. I. De Winter of the Winterview Kennels, on whose farm the tests were made.

Tell is under perfect command, and from the manner in which Mr. Castle handled his dog it was demonstrated clearly that the owner knew every whim of Tell, and Tell was willing to do every-thing required in the long list of tests at the bidding of his master. It would be a lucky culprit to get away from the

German dog, but severe as he is on his prisoner, when he is so ordered, he lets go at the siightest sign of his handler. The "prisoners," well protected in padded suits, had a rough time, and the close weather distressed them greatly.

Tell is 6 years old and was a leading. Tell is 6 years old, and was a leading dog in Germany and a winner of several of the best public trials. Mr. Castle gave \$1,000 for him and remarked that

Breeding for color has always been an interesting matter, and the subject of color in animals, its reasin, cause and determination is entertaining and one that has been the wonder and admiration of leiding naturalists. There are column article in the London Field, over the initials of J. W. R. In which all spanie; breeders will be much interested.

The writer says that he has been forced to the conclusion that the color of forced to the conclusion that the color of the offspring is influenced by the sire the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the offspring is influenced by the sire that the color of the conclusion that the color of the co he absolutely no interference with bench shows or the many matches to be field in force the many matches to be field in the offering is influenced by the strong hotels and other places by specially kennel clubs.

Dr. Goldwater when asked if he would suspend or cancel the ordinance after it has been in force thirty days said that he would not; but he remarked that the offspring is influenced by the sire under the charge of, kept up and improved in his work by Mr. Baer at his police this point he writes with a perfectly open mind, inasmuch as there may be side [saues which might contain the charge of There is one point which stands out in breeding colored spaniels, and that is black is a deadly color to deal with. Black spaniels have a way of stamping out all other colors and of re
Here is one point which stands out in breeding colored spaniels, and that is deadly color to deal with. Black spaniels have a way of stamping out all other colors and of re
Here is one point which stands out in breading to be a specific to the color of the c He made an excellent showing and his trial was over soon. Shot after shot of in his eyes, but the dog stuck on and it appeared as if no man could set away

m him under ordinary conditions. Benjamin H. Throop of Scranton, Pa., president of the club, worked his own dogs and his Siegfried of Elmview was well up and received the high commendation of the judges. They were Charles Clark, Will-iam C. Ahrens and B. Homman, the two

Many who had met Col. Claude Cane n the United States and during his big game expeditions in Canada will sym-cathize with him in the death of Mrs. game expeditions in Canada will sympathize with him in the death of Mrs. Cane, which occurred at St. Wolstans, Celbridge, Ireland. Mrs. Cane was an original member of the ladies' branch of the English Kennel Club and for years was a most successful exhibitor of Pomeranians and a regular visitor to all the chief shows on both sides of the Bost. chief shows on both sides of the English Channel. Mr. Bell, master of the Kil-kenny Foxhounds, married a daughter of Col. and Mrs. Cane. Col. Cane is the author of widely read works on big game hunting in different parts of the world, and one of the chief proprietors of Our Dops, Manchester, England.

Airedale Club Objects to Muzzling. At the regular monthly meeting of the Airedale Terrier Club of Long Island it

was resolved:
"That this club considers it an unnecessary hardship upon those owning dogs to compel them to muzzle their dogs while on leash and under proper control; that the only real menace of dogs in this city is the great number of dogs which are allowed their liberty in the public streets, parks, &c."

MUZZLING HARM MODERATED.

Vermilax Takes Place of Grass That

There are good reports over the use of Vermilax, a preparation that cleanses and strengthens the intestines of dogs. Now that dogs have to wear muzzles they are that dogs have to wear muzzles they are prevented from picking or grazing the long and sharp sword grass that may be found in parks or even at the bases of the trees planted in the city streets and elsewhere. This grass is the natural vermifuge for dogs, and it will have been noticed how eagerly even the puppy will eat grass, while the other dogs will search it out and at once chew it. Subsequently veniting the dog in this or some other ly vomiting, the dog in this or some other way expels the parasites which he knows injurious to him, cause him much

Heights, Upper Montclair. This dog was one, and it quickly and positively removes handled perfectly by his owner. Vernon worms from dogs. And when a dog is free Castle, who scored 205 points with his from those intestine troubles there may
